- Remote control via DMX, MIDI, TCP-IP, RS232
- 1 x DVI "Video" Output & 1 x DVI "Control" Output
- Supplied with 1 x 19" TFT Monitor, Keyboard and Mouse

The HippoCrittter media server from Green Hippo, provides rich media playback on four video layers, with a resolution of up to 720 x 576 with Green Hippo's highly acclaimed frame-blending.

It has built-in media encoding, full time-line capabilities, full effects banks, ScreenWarp and PixelMapper which can output video to compatible LED fixtures over ArtNet. Because the HippoCrittter supports full networking functionality, it will integrate into any project big or small.

All our 'Crittters have the Zookeeper software installed, allowing them to be linked together and managed from one server.
